\*See below for more detailed explanations of licensing benefits

## Licensing Benefits Details and Policies

**Number of Active PLAY Project Consultants:** Individuals or organizations with 1-3 PLAY Project Consultants (PPC) can choose the PLAY Organization Plus license in order to gain added benefits.

**Permission to use PLAY Project name:** The PLAY Project® name has received formal trademark registration from the US Patent & Trademark Office. Professionals and organizations who implement the PLAY Project autism intervention model have permission to use our name, logo, and program materials under our licensing agreement.

**Listed as provider on playproject.org:** A listing with provider contact information helps clients to find your organization when searching for autism services in their area.

**Access to most up-to-date materials:** All active PPCs and relevant administrators can download electronic versions of the most current program, administration, and marketing materials on Sharefile.com.

**4 free live webinars with Dr. Solomon per year:** Live quarterly webinars are typically scheduled at noon EST, and are recorded and archived for those who cannot attend. Active PPCs will be notified by email to register (so be sure to keep us updated on your most current email address!).

**Discounts on trainings and products:** Examples include, but are not limited to:

- Reduced registration fees for certification training, workshops, and online courses
- 20% discount on all e-learning products
- After completing Certification supervision tasks, PPCs can request additional case review supervision: \$75 (\$120 value)

**Administrative support from PLAY Project team:** Help with technology, outreach to referral sources, program administration, and implementation challenges.

**Replacement training if PLAY Consultant leaves organization:** If a PPC-in-training leaves the organization, we provide a credit and discount for the organization to train a new PPC. Request our "Replacement and Retraining Policy" for details.

**Non-certified staff have access to PLAY Project select online courses, including Introduction to the PLAY Project and archived webinars:** Coming Spring 2016! Each year, up to 5 non-certified staff can access the online course "Introduction to the PLAY Project" and our archive of quarterly live webinars.

## Licensing Benefits Details and Policies (cont.)

**PLAY Project facilitator training:** Coming Fall 2016! A combination of in-person and online training prepares Certified PLAY Project Consultants to be able to facilitate PLAY Project workshops and online courses.

**Exclusive PLAY Project Center Benefits:** Contact [licensing@playproject.org](mailto:licensing@playproject.org) for more information about becoming a PLAY Project Center.
